## **SOLID-CONSTRUCTION COMPACT SHOWER CABINS FOR INTENSIVE USE.**

Looking for a supplier of solid-construction compact shower cabins? Then look no further than Harpie B.V. in Aarle-Rixtel. Solid construction, compact shower cabins are excellent for intensive use and are a good choice in the areas of hygiene, comfort and safety. By involving us in your plans at an early stage, we can advise you about the layout, capacity and routing in your space. We then create a design, build your product and we take care of the assembly and installation on site. For existing spaces, we're glad to come take a look at your situation and measure it beforehand.

Harpie B.V. offers a selection from among solid-construction compact shower cabins in various colours, textures, dimensions, thicknesses and qualities. We deliver the following brands of panelling: Trespa, Fundermax, Arpa and Polyrey. Thanks to our extensive inventory, we can deliver within 24 hours if so desired. **Harpie B.V. has a solution for every budget.**

# TOILET | CABINS

## **SOLID-CONSTRUCTION COMPACT TOILET CABINS IN BOTH LUXURY VERSIONS AND BUDGET SOLUTIONS.**

For existing spaces, we're glad to come take a look at your situation and measure it beforehand. Harpie B.V. is also glad to share thoughts with you about hanging hardware and fixtures for solid-construction compact toilet cabins. Schools, for example, often prefer aluminium hinges that are safe for fingers. When selecting standards, doorknobs and hinges, will you go for a budget solution in plastic, or do you prefer the super-solid, tough-as-nails luxury version in massive stainless steel? Harpie has it all.

# SPECIFICATIONS

What is solid-construction compact actually made of?

The silver ions encapsulated in glass particles are activated by contact with moisture. They neutralize bacteria and prevent cell division, reducing the risk of infection. The Sanitized® treatment, based on Ag+ ions, does not migrate with the substances with which it comes in contact and does not wipe away over time. In contrast to synthetic and organic antimicrobial substances.

Characteristics of solid-construction compact:

Impermeable to moisture and electricity

Highly impact resistant

Highly resistant to wear

Stain resistant, easy to clean

Self-supporting and long-term stability

Non-toxic and completely hygienic

Various colours, finishes and patterns

HARPIE COLLECTION

The colours on the paper may differ in reality. So check the colour you choose.
